Menlo Park, California

Hybridizers, Specialists and Growers of
HAND POLLINATED GLADIOLUS SEED
UNBLOOMED SEEDLINGS and NOVELTIES

1931 CATALOGUE

of
HAND POLLINATED
1930 Gladiolus Crosses

DAVID V. TUTTLE, Manager

INTRODUCTION

This catalogue is created as a result of the demand for "Something Different," and for the best obtainable in Gladiolus.

Gladiolus seed is, in reality, a tiny Bulblet, awaiting the moment to spring forth, and gladden the heart of an expectant grower, with its alluring combinations of tints and hues.

And this popular flower is so easily grown from the seed, that no one need deprive themselves of the joy and thrill of raising "Something Different" in Exhibition Glads; and the fact that no two seeds, even from the same seed pod, can be expected to produce two flowers exactly alike, makes the sport all the more alluring.

Recent rulings, whereby patents can now be obtained on New Varieties of outstanding merit, gives quite a new angle for the allurements of Glad Fans to originate their own Novelties.

We are located on the Peninsula, thirty miles south of San Francisco, and one mile from Stanford University, in the wondrously favored locality of Menlo Park. This section is tempered by the cooling breezes from the Golden Gate, giving an average summer temperature of between seventy-five and eighty degrees.

We have neither excessive heat, drying winds, nor rains from May to November to interfere with the very exacting operation of Hand Cross Pollenization; therefore, this important process is carried through under most favored conditions.

It is our conviction, there can be no better seed grown than that which we are offering to you through this catalogue; and our unbloomed seedlings, raised from our Hand-Pollinated crosses of 1929, should produce something very fine indeed. Of these we can offer only sizes under half inch this year.

Our crosses of many of the choicest New Varieties from all parts of the world can be relied upon to be TRUE in every instance; and we believe that our seed should germinate 100 per cent. However, as is the custom in the Seed and Nursery business, we give no warranty, either expressed or implied, for the results of crops grown from our seeds and bulbs, and they are accepted under these conditions.

We send out only healthy stock, and are most anxious to insure complete satisfaction in every instance. Let us know your complaints before you tell your neighbor.

We waive all rights of origination with the sale of our seed, and relinquish all claims to any outstanding varieties obtained therefrom; all rights passing automatically to the purchaser.

HOW TO REMIT—Full remittance should accompany all orders: Please make all remittances either by P. O. Money Order, Bank Draft, or Personal Check, made payable to Novelty Gladiolus Gardens. Send currency by REGISTERED mail only.

PRICES—Our prices are strictly NET, and are based upon the cost of production of FIRST CLASS stock. One OUTSTANDING new variety will repay HUNDREDS of times the first cost of a packet of seed.

SHIPMENTS—All shipments will be made promptly, weather conditions permitting; shipments ordered made during heavy freezing weather will be entirely at the risk of the buyer. Kindly do NOT ask us to ship "C.O.D.," since this method is unsatisfactory alike to both sender and receiver.

EARLY ORDERS are a mutual satisfaction. Please make a SECOND CHOICE, since some of our crosses are in quite limited supply. To encourage EARLY ORDERS, we will accept a remittance of 25% of the full amount of the order, to hold the same, with balance before shipment.

SUBSTITUTIONS—We make no substitutions, unless requested to do so. All orders filled in strict rotation, subject to prior sale.

MENLO PARK, CALIFORNIA

All shipments delivered free to any point within the United States. We guarantee all stock to be healthy, and true to name.

Kindly write (OR PRINT) name and address very plainly, with full shipping directions.

OUR MOTTO—Liberal count, and entire satisfaction. To avoid disappointment, ORDER EARLY.

HAND POLLINATED GLADIOLUS SEED, OF 1930 CROSSES
